RELIEF MAP SHOWING POSITION AROUND KIMBERLEY.

Associated Press Dispatches by The Tribune's Special Leased Wire.

LONDON, Dec. 8.—While nothing in the latest messages from the British camp indicates that an immediate advance, it appears that Pretoria has now fighting resumed Wednesday. It is known, however, whether General Methuen has advanced or not, since the Boers have not yet been heard from.

Reports were again current in Orange river Tuesday, December 6th, that Mafeking has been relieved. The dispatches from Mafeking show that the bombardment of Ladysmith was continued Thursday, December 7th. A pneumatic dynamite gun on Tuesday, has commenced the work.

The Free State is now in full. Staters are reported to be looting. Action Holmes on the way back to the Free State border.

LADY WILSON A PRISONER.

According to a special dispatch from Pretoria, General Butler recently proposed an exchange of prisoners, especially Lady Smith, for General Methuen. Lady Wilson, at Mafeking, Lady Wilson, a daughter of Winston Churchill, and the wife of Captain C. O. Wilson of the Royal Horse Guards. This was the first definite news that the proposed exchange had been arranged, but the double capacity of newspaper correspondent and Red Cross nurse, and there had been much mystery about her. FIGHT FOR THE NEBRASKA TOGA.

Populist Allen Likely to Succeed Senator Hayward.

Associated Press Dispatches by The Tribune's Special Leased Wire.

OMAHA, Dec. 8.—Governor Poynter has been called from the capital to Albany by the illness of his father, and this has caused a slight delay in the start of the session to be opened by Senator Hayward. The friends of both Allen and Hitchcock are busy organizing their forces, however. One feature of the contest is the grouping of all parts of a compromise committee to fit it up to the best of the two will get. The Fusion members of the last Legislature are practically unanimous in urging Allen's appointment. As they are practically all Populists, and Governor Poynter is also a Populist, this is counted on to have its effect.

The Democrats are apparently united on Hitchcock and are making their strongest fight on the plea that the Democrats have not heretofore received their share of the political cake for the past two months. The only serious defection among the Democrats from Hitchcock is Attorney-General Smyth, who is in Washington, and who is reported to have telegraphed to the governor that "Allen" is appointed. The Governor has announced the appointment would not be made before the middle of next week, in order to give all parties a chance to be heard.

WITNESS SAID TO BE KIDNAPPED.

Associated Press Dispatches by The Tribune's Special Leased Wire.

NEW YORK, Dec. 8.—In the hearing of the Molineux poisoning case today the fact developed that the prosecution had secured the custody of a witness whose testimony may have had an important bearing in the case. The person in question is Mamie Mullenda, who had the care of Molineux's rooms in the dry color factory of Morris Hermann & Co., Newark. Miss Mullenda was enticed across the river from Newark to the Seaford, N. J., station of the New Haven, and taken to the house of detention in this city.

## ROBERTS BEFORE THE COMMITTEE

Makes a Statement as to His Wishes in the Inquiry.

Associated Press Dispatches by

The Tribune's Special Leased Wire.

WASHINGTON, Dec. 8.—The committee which is to inquire into the status of Mr. Robert's health, adjourned session to close doors today. During the early hours of the meeting Mr. Roberts was present and made a statement as to his general wishes in connection with the inquiry. He said he was "desirous to have his private life right to a seat, afterwards taking up the general merits of the subject. He had indicated also that he desired to give testimony relative to the manner in which the charges against him were prepared.

Mr. Roberts then retired and the committee continued in private session until 12:30, when a recess was taken until 2 p.m. Details of the procedure were still under consideration.

ADD ROBERTS BEFORE COMMITTEE.

The 2 o'clock meeting was brief and was adjourned until 10 o'clock this morning, except that Chairman Taylor, Ohio, said the work was progressing satisfactorily and smoothly. It is understood that some question exists as to whether Roberts will be called as a witness by a committee member, he having been called as a "tad," and the committee will probably hear him further before reaching a conclusion.

WASHINGTON, Dec. 8.—Mr. Macrum has broken his long silence and in a cable message received at the State Department today, says that he will sail on the 18th inst., via Naples, for the United States. This is an indication that he has received the department's endorsement granting his application for leave of absence. Mr. Adelbert Hay, his successor, has been appointed to replace Mr. Macrum, will leave Washington tomorrow to begin his journey.

## GEN. METHUEN BELIEVED TO BE FIGHTING.

LONDON, Dec. 8.—The War Office has just issued the following:

"No further news has arrived from General Methuen today, but the following has been received from Orange River."

"A railroad cutout was blown up near Graspan, this morning. The Telegraph is also cut. The guides report heavy firing, but nothing definite is known.

"This is a starting point of affairs, and Major Snow said today that if a revenue of some kind was not provided it would be necessary to withdraw."

"The first radio manifesto in a report just made to Major Snow by Audley Broad states forth the balance in the different funds of the city in the city of Kimberley, and the amount of the

other funds were reported. These ex-

penditures have been made by the Board of Works under instructions from the City Council."

"Major Broad's estimate of the money

spent on the expenses of the city for

several years past, would come into the

## WINTERS DIES ON SCAFFOLD.

Baden Murderer Reviles the Chaplain Who Tried to Console Him.

Associated Press Dispatches by

The Tribune's Special Leased Wire.

SACRAMENTO, Dec. 8.—Harry Winters was hanged at Folsom Prison at 10 o'clock this morning for participating in the murder of C. A. Andrews, at Baden, San Mateo county on November 17, 1897.

He died without a struggle. Winters was not his real name. He was a German Socialist, and refused to give any statement regarding his family or former history. He rejected the ministrations of Rev. Father Nugent, the Catholic chaplain, and this morning when Rev. Mr. G. S. Goss, the Protestant chaplain visited him in his cell, he used very profane and abusive language and denounced the ministers of the Gospel and their Christian religion.

There was a short, two hours' respite, and the execution was one of the

neatest ever performed at Folsom.

Winters died at ten and a half minutes after the drop fell.

STORY OF THE MURDER.

In company with James Willett and C. H. Raymond, alias Samuel E. Moore, Winters attempted to burglarize a hotel at Baden, San Mateo county, on the night of November 16, 1897, in a strong box with Patrick Ferrier, the proprietor, and C. A. Andrews, a boarder. The latter was injured. Subsequently, Raymond was indicted and sentenced to life imprisonment, and Ferrier to 15 years.

Winters had previously served two terms in Folsom Prison for burglary and attempted to commit burglary again.

He was also a member of the Oregon State Prison, and was twice a fugitive.

Winters was hanged at Folsom on April 8, 1898. Willett was captured in Arizona and pleaded guilty, receiving a life sentence. He is now confined in Folsom.

## CHANGE IN FOOTBALL PLANS

## The College Professors Want to Make Big Change.

The athletic authorities in the two great universities of California are moving to revolutionize the game of football by getting rid of a number of traditions and purely amateur bases. The element of amateurism is to be eliminated. The Thanksgiving day game, the playing of games outside of college grounds and the employment of high school boys as players in amateur football leagues are to be given up. What is known as the football season is to be shortened by having the national game come off in the first or second week of November instead of Thanksgiving day.

These are the ends aimed at by a movement now on foot in the faculties of the two universities. It has been under contemplation for some time.

On November 22, 1898, there was a meeting of the faculty athletic committee at Berkeley and Stanford on the subjects: Professors Edwards, Clegg and Bacon represented the former institution and Professors Richardson, Kellogg and Branner the latter.

They have adopted embodying the lines above set forth, which are to be submitted to the presidents of the two universities for their ratification.

President Jordan of Stanford is known to be in favor of the removal of the amateurism object from college football.

The sentiment of the faculties and of the more thoughtful portion of the students of the two universities is believed to be in sympathy with the aims now sought.

The fact that Folsom street grounds in San Francisco have been engaged for next Thanksgiving day, it is possible that the revolution in the movement will not be put in operation until another year.

\* \* \* \* \* FARMERS HAVE NO REASON TO COMPLAIN OF LACK OF RAIN. \* \* \* \* \*

There was a lively downpour of rain at early noon yesterday. Its extent—about 1.50 inches. Some reports said the fall was 2.00 of an inch. This makes a total precipitation for the month of December of 3.00 of an inch. The total rainfall for last month amounted to 5.50 inches, and that for October 4.50 inches, making a total of 13.50 inches for the season, as against 2.40 inches for the season of '98-'99.

Mr. Clegg states that he believes the rainfall for this season will amount to 7.00 inches.

## HANGED FOR A BLOODY MURDER

## Butcherer of a Woman Pays the Penalty at Washington.

Associated Press Dispatches by The Tribune's Special Leased Wire. WASHINGTON, Dec. 8.—George W. Horton was hanged in the district jail today for the murder of John Nicholson, 29, of the 10th Ward, Army Corps, in the congressional wharf, signed and pronounced his determination to break off the relations which existed between them. As she arose from the bench to leave him his executioner, in a fit of rage, struck her in the chest. In a fit of rage, she struck her again and again, almost severing her head from her body. Nearly one hundred persons witnessed the murder, but were too paralyzed with horror to interfere. She was then carried to the vestry room in an hysterical condition.

Professor McChesney stated that Miss Bailey became unconscious and would have to be resuscitated. Seven stereoscopic views of the islands were shown, after which the audience departed.

FRUIT STOCK QUARANTINE

Associated Press Dispatches by The Tribune's Special Leased Wire.

LOS ANGELES, Dec. 8.—Owing to the possible infection of fruit orchards by the importation from other States or foreign countries of fruit or trees infected with the "crown gall" disease, the State Association of Horticultural Commissioners of Southern California has prepared the draft of a bill which it is to be submitted to California, which hopefully will be passed into a law.

The bill is to establish a national quarantine law against infected nursery stock, and to prohibit the importation of a similar nature to operate as an interstate law against insect pests and dis-

ease.

## Muriel Bailey Becomes Hysterical While Lecturing.

Miss Muriel Bailey last evening while delivering her lecture at the First Presbyterian Church on the Philippines Islands, broke down and retired from the platform. Miss Bailey is unstrung by a severe nervous tension, and is still suffering from the effects of a fever contracted while in the Philippines.

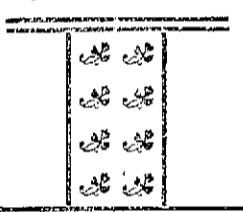

Professor J. B. McChesney introduced the speaker, and when she began to speak the students became unstrung and retched, saying she would put on her Filipina dress and recover herself. In a short time she returned in the picturesque dress of the islands, and again attempted to speak. She became confused and retched in the vestry room in an hysterical condition.

Professor McChesney stated that Miss Bailey had been unstrung and ill and would have to be resuscitated. Seven stereoscopic views of the islands were shown, after which the audience departed.

FRIDAY, DECEMBER 8, 1893

It will be interesting to see how many votes are really cast to the Quay when the test comes. With contradictory reports coming over the wires as to the situation, it would take an expert to Chinese puzzles to make head or tail of it.

The Indian football team is coming to the coast to play the University of California, Berkeley having arranged for the transportation and other expenses. Scattered ought to be able to do some business when the tickets for the game go on sale.

They are going to raise turtles for the market in Shasta county. In the interest of the public it is to be hoped that they will not be permitted to drink at the springs. The charge will be high enough without anything like that.

Burglar Sullivan is on a hopeless hunt if he thinks that by getting his trial removed to another county there is a chance for him to escape the punishment he deserves. With a prior conviction or two charged up to him and the undeniably fact that he was caught red-handed on the present occasion, it does not seem possible that he can escape a "life" wherever he is tried, so he might as well take his medicine here as anywhere else.

The dog and poultry show at the Exposition building is a good one and deserves general attention. The poultry interests of the coast need a great deal of encouragement, for with all the opportunities in that line we possess, it is high time to put a stop to the annual importation of millions of eggs and hundreds of thousands of chickens and turkeys. We can raise them here just as well as they can in Kansas and Missouri and thus keep in our pockets not only the profits on the purchase price, but the heavy outlay for transportation.

The story that of Roberts fails to secure his seat as Representative he will be appointed United States Senator by the Governor of Utah, should quickly upset the existing precedent, is too silly for anyone to swallow. It tends to reason that if the House declared that Roberts was not fit to sit in its midst, the Senate could not afford to shut its doors and welcome the wanderer. On the contrary, it would be more than likely to wax indignant over the very idea, thinking thereby to create the impression that the moral character of its members is of a very high standard. Roberts certainly won't be able to bob up serenely in that quarter.

## A BODY BLOW.

The bare announcement telegraphed from South Africa that the De Beers mines at Kimberley are failing with water is of greater interest from a financial point of view than all the news conveyed in the two or three columns that are published daily regarding the movements of the opposing armies. The De Beers mines are those in which Cecil Rhodes is directly interested. The cause can only be the cutting off of the fuel supply, and in this way the Boers are doing British interests even more damage than is being inflicted by the actual operation of the armies.

News of this sort has been expected ever since the time when the Boers, through their official organ in London, the Standard and Diggers' News, threatened to destroy the mines at Johannesburg with dynamite. They have evidently thought better of that program since, on the theory, presumably, that outrages of that description would not only preclude all possibilities of an amicable settlement of the present difficulties, but would call down upon the Boer government the condemnation of the whole world, which would be injured more or less by a stoppage of the principal source of gold supply. There would be no compensation, though, on the part of the Burgesses in striking at the interests of their arch enemy, Cecil Rhodes, by temporarily shutting off his source of revenue in the manner indicated, and he can consider himself fortunate if that should prove the sole extent of his losses.

The effect of the cessation of operations in the De Beers mines will naturally be a marked advance in the price of diamonds, for the Kimberley district is practically the only available diamond yielding section now in existence. The famous Golconda mines of India have not been yielding any treasure worth speak-

ing of for many years past, while the Brazilian gems do not come up to the standard sufficiently to be entitled to consideration. The stringency of the diamond market was shown by the fact that as soon as the war in South Africa was declared the diamonds already in hand advanced in value from 20 to 25 per cent, and in view of this later discouraging news they will undoubtedly be subjected to another raise.

The Boer conflict, therefore, instead of being merely local, is having an effect the world over, for it is a singular condition to find so small a territory practically controlling the two greatest treasures in the world—gold and diamonds. No wonder financiers watch with sorrow the development of hostilities instead of indications of peace; for unless millions of money are involved, and if the present troubles continue for any considerable time the losses to the world will be enormous and may even prove disastrous.

Attorney General Ford's opinion to the State Superintendent of Public Instruction, to the effect that it is illegal to charge tuition fees to students attending from outside districts, will have a good deal of effect in Alameda county, where such a system of tolls has been in vogue for a long time. The Attorney General's point is a good one, though, for it is clear that as the law declares that education in the public schools shall be free of all cost, it is illegal to impose charges for any purpose.

It is somewhat of a farce for those who have been holding mass meetings for the purpose of expressing sympathy with the Boers to hear that the Burgesses are insulting the American flag at our Consulate in Pretoria. Instead of having anything to do with us, the American is just as bad a Burgess as the British, and it is ridiculous, in view of the state of affairs, for us to be putting the Boers upon the back and expressing the hope that they will win.

Mayor Snow's efforts to keep the streets clean should meet with every encouragement other than a word of protest. Nothing gives a city such a black eye to strangers as dirty, littered streets with uncollected refuse lying about, unattractive and offensive. The man who likes to have his home clean should possess exactly the same feeling for the city he dwells in.

COMPARIS PARKS AND CONGRATULATES THE BELLE LADIES.

The burglar Sullivan is on a hopeless hunt if he thinks that by getting his trial removed to another county there is a chance for him to escape the punishment he deserves. With a prior conviction or two charged up to him and the undeniably fact that he was caught red-handed on the present occasion, it does not seem possible that he can escape a "life" wherever he is tried, so he might as well take his medicine here as anywhere else.

The dog and poultry show at the Exposition building is a good one and deserves general attention. The poultry interests of the coast need a great deal of encouragement, for with all the opportunities in that line we possess, it is high time to put a stop to the annual importation of millions of eggs and hundreds of thousands of chickens and turkeys. We can raise them here just as well as they can in Kansas and Missouri and thus keep in our pockets not only the profits on the purchase price, but the heavy outlay for transportation.

The story that of Roberts fails to secure his seat as Representative he will be appointed United States Senator by the Governor of Utah, should quickly upset the existing precedent, is too silly for anyone to swallow. It tends to reason that if the House declared that Roberts was not fit to sit in its midst, the Senate could not afford to shut its doors and welcome the wanderer. On the contrary, it would be more than likely to wax indignant over the very idea, thinking thereby to create the impression that the moral character of its members is of a very high standard. Roberts certainly won't be able to bob up serenely in that quarter.

A BODY BLOW.

The bare announcement telegraphed from South Africa that the De Beers mines at Kimberley are failing with water is of greater interest from a financial point of view than all the news conveyed in the two or three columns that are published daily regarding the movements of the opposing armies. The De Beers mines are those in which Cecil Rhodes is directly interested. The cause can only be the cutting off of the fuel supply, and in this way the Boers are doing British interests even more damage than is being inflicted by the actual operation of the armies.

News of this sort has been expected ever since the time when the Boers, through their official organ in London, the Standard and Diggers' News, threatened to destroy the mines at Johannesburg with dynamite. They have evidently thought better of that program since, on the theory, presumably, that outrages of that description would not only preclude all possibilities of an amicable settlement of the present difficulties, but would call down upon the Boer government the condemnation of the whole world, which would be injured more or less by a stoppage of the principal source of gold supply. There would be no compensation, though, on the part of the Burgesses in striking at the interests of their arch enemy, Cecil Rhodes, by temporarily shutting off his source of revenue in the manner indicated, and he can consider himself fortunate if that should prove the sole extent of his losses.

The effect of the cessation of operations in the De Beers mines will naturally be a marked advance in the price of diamonds, for the Kimberley district is practically the only available diamond yielding section now in existence. The famous Golconda mines of India have not been yielding any treasure worth speak-

## THEY TALKED ABOUT GARBAGE.

Northrup Makes Proposition to the Council.

"There's nothing half so sweet in life as love's young dream."

It was meant to be so when woman was ordained man's helpmeet. But it was never meant that love's dream should have so sad an awakening. It is due chiefly to ignorance that young women are so rudely awakened from the dream of love. They enter on the married state without physical or mental preparation. They are entirely unaware of the great physiological change suggested by the one word "marriage."

Every young woman should be prepared for that change. There should be no regard of irregularities. The perfect health of the peculiarly womanly organs should be the daily care. Thousands of women who entered in marriage unprepared, and passed from irregularities to debilitating drains, inflammation, infarction and female weakness, have been altogether and absolutely cured by the use of Dr. Pierce's Favorite Prescription. This great medicine is not a cure-all, but a specific for the chronic diseases peculiar to women. It does one thing perfectly: it makes weak women strong and sick women well.

"For two years I had been suffering from chronic diseases and female irregularities, and was a burden to the Rodman Street, Philadelphia. I am the only doctor who only relieved me for a time. My doctor advised me to take Dr. Pierce's Favorite Prescription, and I have highly benefited. I am now a strong woman and no longer need Dr. Pierce's medicine to fill him up."

## NO SUNDAY

## MAIL DELIVERY

Postmaster Friend Is-  
sues a New  
Order.

The delivery of mail on Sundays is now at the postoffices which have been in the practice for many years will be discontinued on and after the first Sunday in January.

The effect of an order which has just been issued by Postmaster Friend.

All cities which aspire to metropolitan distinction the Sunday mail delivery is not regarded as a mark of progress.

## WILL BE MADE

## VICE-ADMIRALS.

## Associated Press Dispatches by The Tribune's Special Leased Wire.

NEW YORK, Dec. 8.—A special to the Herald from Washington says:

An interview with Senator Wellington, expressed himself in favor of revising the grade of Vice-Admiral in the interest of both Rear-Admiral Sampson and Rear-Admiral Schley to believe that this is the only solution of the whole Sampson-Schley controversy, and it is expected that Senator Wellington will introduce a bill in a few days providing for the appointment of two Vice-Admirals, without specifying ranks.

He said very frankly that if such a bill became law he would promptly nominate both Sampson and Schley in the order named. This arrangement, both the President and Senator Wellington believe, will meet the approval of a majority of the friends of both officers.

M. BENARD HAS  
LOST HIS SUIT.

## Associated Press Dispatches by The Tribune's Special Leased Wire.

NEW YORK, Dec. 8.—A special to the Herald from Paris says:

M. Berard, the successful architect in the competition of designs for the University of California, endowed by Mrs. Phoebe Hearst, has lost the action he brought against the Compagnie de l'Orléans, the Parisian contractors, for the completion of the New Orleans station, on the site of the former Cour de Comptes.

M. Berard claimed \$5,000 francs. The company offered 75,000 francs. The court, however, decided the sum to be sufficient, and ordered the company to pay the amount.

TAXPAYERS MAKE  
A GOOD SHOWING.

Property Collector Cole has just issued up to the Legislature on taxes in this city on the first installment, with the following result: Total amount assessed, \$27,889.75. Delinquency in the annexed district of 49, 311, 329, annexed to the 49th, \$16,641.25, in Oakland proper, \$3,021.25. The total delinquency of \$21,907.75. From the delinquency of the tax of Oakland proper, or old Oakland, there must be deducted \$16,000 from the San Joaquin Pacific Company on the assessment of the property. The franchise on the same, as also from certain banks which are contested and which would leave the delinquency in the amount of \$5,785.22.

WANTS DAMAGES  
FOR ATTACHMENT.

George Ingram has begun suit against Constable W. Webster for \$6,000 damages alleged to have been sustained by reason of an attachment which was served on him at his residence at 522 Twelfth street. Plaintiff claims \$6,000 for the goods seized and \$600 for the damage done to his business.

## Fishing Sloop Wrecked.

Associated Press Dispatches by The Tribune's Special Leased Wire.

PROVINCETOWN, Mass., Dec. 8.—The fourteenth fishing sloop Golden Eagle of Liverpool, R. P., was wrecked near the entrance of Provincetown harbor early this morning. The crew of five men were rescued after some difficulty by the Wood End life saving crew. The vessel was when it struck aground, far out when it struck aground, gave way her sail and those on board could not prevent her from going ashore.

SAYS CONTRACT  
WAS CHANGED.

Suit to Stop Work on  
the Webster Street  
Bridge.

Martin Carter, by his attorney, J. C. Bates, commenced a suit in Superior Court against Cotten Brothers et al. to have declared illegal the contract to build the Webster street bridge. It is claimed the contract was changed after it had been passed by the Supervisors. It is claimed the San Francisco Bridge Commission is behind the suit.

The complainant recites the steps taken by the Board of Supervisors in calling for bids for plans and specifications of the bridge, and of the acceptance of plans by Cotten Bros. and in the subsequent letting of a contract to the same firm to construct the bridge for \$92,500.

Then it goes on to describe a certain plus point of plans and specifications known as "Sheet No. 1," which contained some of the most important portions of the bridge. The change is made subsequent to the letting of the contract the original "Sheet No. 1" had disappeared, and the new "Sheet No. 2" had been substituted on which appear specifications of greatly diminished size and weight from those on the original sheet aggregating 35,000 pounds less to construct the bridge.

This alleged substitution of a sheet of specifications for the original "Sheet No. 1" is charged as due to "Fraud, malice and trickery." The defendants named in the complaint are: The Board of Supervisors of the county of Alameda; Ernest J. and Charles E. Cotten and James B. Agassiz, trustees of the Armory; Arthur W. Field, City Surveyor, Auditor and Arthur W. Field, Treasurer of Alameda county.

The lawyer of the complainant asks that the contract be declared illegal; that the Auditor be restrained from drawing funds for Cotten Bros. and that the Treasurer from paying the firm any amount.

Charles Cottier says that he knows nothing about the suit. He says it is simply a case of knockers trying to do harm.
